***Capital Pump
& Equipment***

ABOUT

Capital Pump & Equipment is here to solve our clients' fluid handling needs by offering top manufacturer's pumps and accessories combined with knowledgeable, fast, efficient service. CPE will keep you up and running with our team of dedicated experts in the pump industry, 24/7 whatever it takes.

Call us today and let our over 200 years of combined pump and manufacturing experience go to work for you and solve your toughest pump applications.

TOM HENDERSON, PRESIDENT

Capital Pump & Equipment offers a comprehensive range of quality pumps and related accessories for all pumping applications. Solutions for dewatering, water and chemical transfer, slurry pumping, pressure boosting, and wastewater treatment only begin to name our capabilities. With a dedicated staff of pump professionals helping select and size the correct pump from the beginning, projects are completed accurately the first time. CPE is a full-service pump distributor with the ability to sell, repair, and maintain pumps and related accessories in the field. CPE also has a full rental fleet of pumps to keep customers up and running in emergency situations or for those temporary applications. Whatever the need, CPE has our clients covered.
